CONFER
MAHARSHI DADHICHEE SEWA SANMAAN
ON

NILESH V. MANDLEWALA

You are a well-known industrialist from the city of Surat, and born in a family of businessman hailing from Mandle, Burma. Besides your commitment towards your family, profession and humanitarian services in various fields ranging from social redressal to policemen's welfare, your commitment towards development of deceased donor organ donation especially in Surat and around has impressed upon the minds of one and all !

In the days when there was no awareness about cadaver organ donation, you personally spent your time, energy and financial resources in creating an awareness in this area and motivating at least 30 families of deceased donors. The most notable aspect of your activity that has touched upon all is that you have always stood by the families of dying donors in the most trying moments of their life and given them full support and warm tender care when most needed !

Today, we are happy to recognize your services towards deceased donor organ donation and we confer upon you **MAHARSHI DADHICHEE SEWA SANMAAN** of this "karmabhoomi" of Dadhichee rushi.
